TEKNOWLEDGE SECURITY SERVICES

Accelerate Security Readiness and Protection with a Comprehensive Suite of State-of-the-Art Cybersecurity Solutions.

Fortify digital defenses and get robust protection against evolving threats with TeKnowledge Security Services' 360-degree approach to cybersecurity, delivered by the world's top cyber experts.

Elevate your cybersecurity defense with proactive strategies that empower you to confidently navigate the evolving threat landscape.

Comprehensive Threat Monitoring, Investigation and Rapid Incident Response

MSSC-as-a-Service – Real-time threat monitoring, detection and data correlation across your network with coverage tailored to your needs ensure maximum visibility and security around the clock.

Incident Countermeasures – Immediate, effective threat mitigation via a highly experienced, on-demand cybersecurity team that stands ready to tackle any threat for swift remediation and exceptional business resilience.

Scalable Security Operations – Offset gaps in cybersecurity skills and IT team bandwidth with security operations outsourced to a trusted partner for 24/7/365 vigilance by experts in threat detection and protection.

AI-Powered Threat Intelligence – Accelerate threat detection within your network with AI-powered tools for proactive, predictive cybersecurity that thwarts attacks before they wreak havoc on your organization.

ADVISORY AND IMPLEMENTATION

Strengthen your security posture and reduce the risk of emerging cyberthreats with expert assessments, tailored implementation roadmaps and robust penetration testing.

CYBERSECURITY CAPABILITY BUILDING

Forge a cyber DNA across your workforce and elevate cybersecurity competence at all levels of the organization with an advanced infrastructure and customized path to sustained cyber resilience.

MANAGED SECURITY SERVICES

Partner with an expert managed security services provider (MSSP) for scalable, cost-effective solutions tailored to your organization, with 24x7x365 protection and support via Managed Security Services Center worldwide.

TeKnowledge.com

Advisory and Implementation

- Governance, risk and compliance (GRC)
- Secure architecture and security control improvement
- Proactive Defense Services
- Commercial MSSC/CSIRT implementation

Cybersecurity Capability Building

- Cyber training and awareness programs
- Tech stack and infrastructure
- Proprietary methodologies

Managed Security Services

- Monitoring and investigations
- Incident response
- Security operations (SecOps)

Navigating a Complex Landscape
A 360-degree approach to digital security

Dedicated MSSC and CSIRT Response Teams – Partner with a leading managed security services provider (MSSP) with dedicated Managed Security Services Centers (MSSC) and Computer Security Incident Response Teams (CSIRT) that scale on demand to enhance visibility and vigilance across your network for immediate threat response and rapid return to normal business operations.

Advanced Infrastructure Design – Architect a robust cyber resilience strategy through the design and setup of advanced cyber simulators, forensic labs and AI-based analytics tools. TeKnowledge infrastructure services, including threat intelligence sharing platforms, ensure you remain at the forefront of cyber threat intelligence and preparedness.

Strategic Cybersecurity Exercises – Master your security posture with maturity assessments, tabletop and hands-on simulations, and competitive blue vs. red team exercises for a comprehensive approach to preparedness that ensures continuous improvement and readiness against current and emerging cyberthreats.

Cybersecurity Training for Everyone – Establish a dedicated cybersecurity Center of Excellence, complete with labs and simulators, to address cybersecurity's most acute challenge—the human factor. Tailored programs rapidly improve threat recognition and response capabilities, creating a knowledgeable and vigilant workforce that is well-prepared to identify and respond to threats.

Global Coverage

Our 24/7/365 Managed Service Centers, follow-the-sun operations provide certified cybersecurity design, monitoring and response services for organizations around the world.

150+
Dedicated security engineers covering implementation and incident response globally

24/7/365
Managed security services with experts supporting experts at scale

14,000+
Cybersecurity incidents closed in 2022 alone

50+
Tech support specialists across regions for assistance around the clock

USA
Bulgaria
Greece
Cyprus
China
Qatar
Vietnam
El Salvador
Costa Rica
Colombia
Nigeria
